

Myra Lease

Myra Lease is a blend of powerful female vocals and heavy melodic music. Just imagine if Shirley Manson of Garbage, Amy Lee of Evanescence and Grace Slick climbed on the tour bus with Led Zeppelin, Deep Purple and Velvet Revolver.

Myra Lease was formed in the spring of 2005 from the ashes of several Portland bands. All veteran players from the local club scene who had one goal in mind. No band politics, no sniveling, just step up and play for the love of music!

The decision was made to begin the recording process so the tape started rolling. Yes tape! The entire CD titled "Made For Me" was recorded to analog tape which is a painstaking process but produces a wonderful sound that only tape can get. When the tracks were completed they were dumped into a digital work station for the final mix's. The CD was engineered, mixed and mastered in the rehearsal studio by one of the band members who is a self confessed gear-O-holic.

"It is refreshing to hear a new band that has well crafted songs with memorable hooks, solid musicianship and an engaging, entertaining audience rapport. You can't help but love this band and you can't help but sing along the first time you hear them" Says Dan Decker. President. Sound Impressions studios / Artist Management."
